

NOTICE

Important Information :-

We are very happy. Informing all the investors of our TMS Future that from February 2024 till now, our business and software website was being tested in capable countries like India, China, Dubai, Pakistan. Which was being done by the world's largest ISTQB, ITB institutions. In which now TMS Future has achieved the of greatness and success. Now the investors of the countries working with us will not have to face any kind of problem. Now we are fully prepared. We can believe that it took us a very long time to prove ourselves because the rules and regulations are different for working in every country in the currency of every country. That is why we are moving forward by following the rules and regulations of every country. So that the citizens of any country do not have to face any fraud or trouble.

Our world official website is www.tmsfutureworld.com.

By visiting this website, you can search for your country's login panel and login. It will verify your current location and open your country's login panel.

Important information -

All investors of TMS Future Industry are made aware that if you or anyone in your team faces any problem while working, then you can go to the company's official website and tell your problem to our support team through live chat, our team will fully assist you.

If you have any complaint related to TMS Future Industry, then you can complain to the company's management team through email.

Email- officialtmsfuture@gmail.com / sprttmsfuture@gmail.com

Note- If you want chatting support, then you can go to the official website and do live chat.

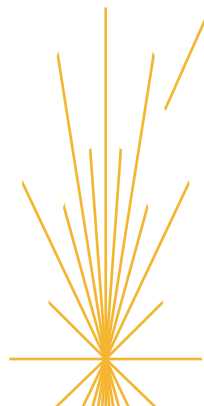

Login Process :-

1. All new investors in TMS Future Industry should first register themselves.
2. Then you will get your user ID and password on your registered email ID.
3. After logging in your ID again, you will go to the main menu bar of your ID and click on [Add Fund] After that click on [Fund TopUp] Under [Fund TopUp] you will find three payment methods
4. [1. Online Gateway Payment 2. USDT BEP-20 3. USDT TRC-20 Payment] On clicking any of these, a QR code will appear.
5. Make payment on that QR code and keep a payment screenshot. After some time, the funds will be automatically added to your ID. If even after some time the funds are not added to your ID, then talk to our technical team, your problem will be solved
6. Then go to the website and do live chat, share the payment screenshot and your user ID number.
7. As soon as you share the payment screenshot, our technical team will confirm the payment.
- 8.. After 5 minutes, the amount will be uploaded to your ID.
9. Then login to your ID again and activate your ID yourself from the top up wallet. 9. Now your investment has been done successfully.
10. If you are facing any problem while doing this work then you can live chat with our technical team, you will be fully assisted.

Thank you

Important information

Important Information :-

This information is being given by TMS Future Industry that all of you are a part of Turner Group and

From August 2025 till now, the training program of all the official and technical and support team of TMS Future Industry was going on. And some technical work was being done on the company's software.

Our technical team always works on our software and the cyber security team also keeps researching on our website. While they are working, you will never have any problem in working. Otherwise, if it happens that due to their work or due to high traffic, any technical problem suddenly comes on our official website, then we want to inform all the investors of the whole world that everyone should be patient and wait for the work to be completed on the site. As soon as our technical team completes its work, you will be able to use our website again immediately. Still, our effort is that through updated technology, our experts keep doing their work in the background on the site and all our investors of the whole world keep using

our official website. They will never have to face any kind of problem. If any error comes, please be patient.

During this training program, some strategies have been passed, keeping which in mind, some amendments have been made and more facilities have been increased.

Like

We want to give one more information to all our users of the world that till now the website has been Only one home page panel used to open but from now on, the home page and login panel of the website of all countries will open separately and this will be made possible by verifying the current location of their device

So that contact support can be provided separately for each country

For example, suppose if the Australia team logs in to the website, they will find social media links on the left side at the bottom of the website, there Telegram channel and WhatsApp channel have been given, so that channel support will be given only to the Australia team. Similarly, separate Telegram channel and WhatsApp channel support has been provided for the Chinese team. In which only the people of China will be connected and information related to their country will be provided to them.

Remember that the website home page panel and login panel of every country and the Telegram channel and WhatsApp channel on the website will also look different and the information given on it will also be related to their country, which will be provided to them. Because a contact support team has been made separately for every country, which will help you on time and all the information related to the company will keep reaching you from time to time.

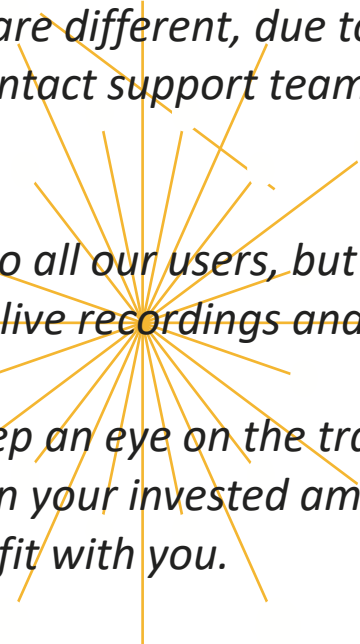

For the awareness of all investors, let us tell you why the panel of every country and the contact support team of every country has been made separate so that the information of one country does not reach the other country.

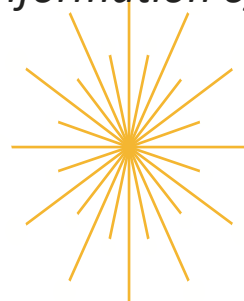

Because the currency of every country and the rules of every country are different, due to which we also had trouble in providing them information, that is why the contact support team of every country has been made separate.

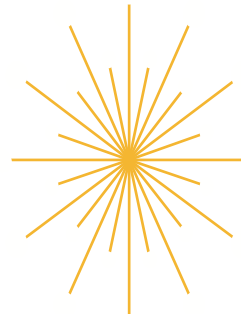

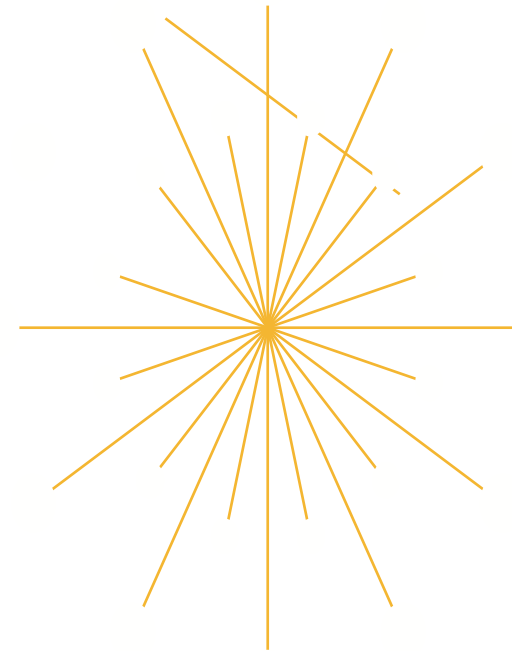

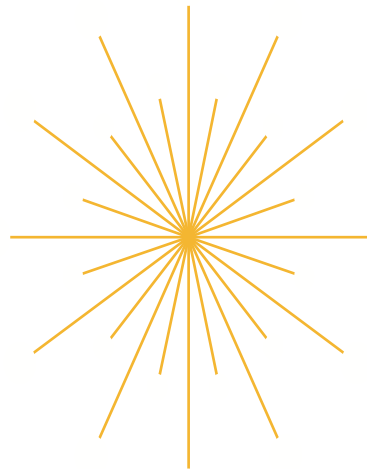

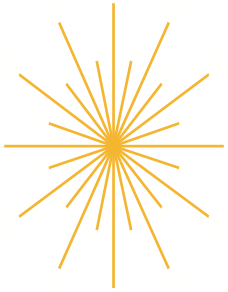

Till now we were not able to provide live support related to business to all our users, but from now on, our support team will keep providing live videos, live photos, live recordings and live update news to all the users about their invested dollars every day.

So that all the applicants associated with TMS Future Industry can keep an eye on the trades going on on their invested dollars. Because our expert traders trade on your invested amount every day and now they will keep sharing the information of daily profit with you.

 All the users are requested to join the Telegram channel and WhatsApp channel on the website because from now on all the updates will be delivered to you through that channel every day.
Thank you.
